

**SEAL ROCK WATER DISTRICT**  
**Board of Commissioners**  
**Regular Monthly Board Meeting Agenda**  
**Thursday, July 9, 2026, 4:00 p.m.**  
**Public Meeting In Person and Zoom Video Conference**

SRWD will conduct this meeting in person and using Zoom video conferencing due to the restricted capacity for in-person gatherings and our commitment to prioritize the safety of the public and our employees. We strongly encourage the public to participate in this meeting electronically. To access further information, including registration details, please visit the SRWD website at [www.srwd.org](http://www.srwd.org) on the day of the meeting. We invite members of the public to submit written comments regarding agenda items by emailing [tkarlsen@srwd.org](mailto:tkarlsen@srwd.org) no later than 2:00 p.m. on the day of the meeting. Submitted comments will be shared with the SRWD Board of Commissioners and will become part of the permanent record.

**1. Call Regular Meeting to Order:**

**2. Announcements/Visitor Public Comments:**

The public comment period provides the public with an opportunity to address the Commissioners regarding items on the agenda. Please limit comments to (3) minutes.

**3. Consent Calendar:**

*Managers' reports included under the consent calendar are an executive summary provided to Commissioners as an update of system conditions, projects, and programs. Management welcomes your feedback and requests more detailed information regarding any item before or during the meeting:*

- |  |                        |
|--|------------------------|
| • Invoice List                           | June 2026 to July 2026 |
| • Board Meeting & Public Hearing Minutes | June 11, 2026          |
| • Financial Report / Approve Invoices    | June 2026 to July 2026 |
| • General Manager's Monthly Report       | June 2026 to July 2026 |

**4. Discussion and Information Items:**

- Consider Water Treatment Plant Update.  
Presented by: Adam Denlinger, General Manager
- Consider John Garcia Memorial Dedication.  
Presented by: Adam Denlinger, General Manager

**5. Decision Items:**

- None

**6. Reports, Comments, and Correspondence:**

- SRWD 2025 Water Quality Report / Consumer Confidence Report (CCR)

**7. Executive Session: according to ORS 192.660(2), Concerning:**

The SRWD Board may meet in Executive Session, pursuant to ORS 192.660(2)(h); To consult with legal counsel concerning the legal rights and duties of a public body with regard to current litigation or litigation likely to be filed. Representatives of the news media and designated staff shall be allowed to attend the executive session. All other members of the audience are asked to leave the room. Representatives of the news media are specifically directed not to report on any of the deliberations. No final decisions shall be made in the Executive Session.

**8. Adjournment: Next Meeting: August 13, 2026, at 4:00 p.m.** Regular Board Meeting or established date.

THIS AGENDA MAY BE AMENDED UNTIL 3:00 PM THE DAY BEFORE THE MEETING

SPECIAL ACCOMMODATIONS WILL BE PROVIDED WITH 48 HOUR NOTICE; CALL 541-563-3529.  
IF HEARING IMPAIRED, PLEASE DIAL 711 OR CALL TTY#1-800-735-1232  
This Institution is an Equal Opportunity Employer and Service Provider

**SEAL ROCK WATER DISTRICT  
MINUTES OF THE  
Regular Board Meeting  
by Zoom Conference Call and In Person  
June 11, 2026**

**Introduction to Remote Meeting:**

SRWD held this meeting through Zoom video conferencing and in person. Due to limited in-person meeting capacity, the public was encouraged to attend virtually.

**Attendance:**

Present in person were Commissioner Rob Mills, Board President; Commissioner Glen Morris, Member; Commissioner Karen Otta, Treasurer; Commissioner Amy Greer, Member; and Attorney Jeff Hollen, Legal Counsel. Present through Zoom video conferencing was Commissioner Sandra Mies-Grantham, Secretary. Staff present were Adam Denlinger, General Manager; Renee Card, Finance Manager; Trish Karlsen, Bookkeeper; and Brad Wynn, Lead Operator.

**Excused Absences:** None

**Visitors Present:** None

**Call Meeting to Order & Announcements:**

President Rob Mills called the regular Board meeting to order at 4:04 p.m., Thursday, June 11, 2026, and introduced the commissioners and staff present in the boardroom. It was noted that there were no formal announcements to present, and the meeting proceeded directly to the scheduled agenda.

**Public Comments:** None

**Adoption of Consent Calendar:**

Items on the consent calendar include the May 2026/June 2026 Invoices List for approval; May 14, 2026, Regular Board Meeting minutes; the Financial Report; and the General Manager's Monthly Report. Commissioner Otta moved to approve the consent calendar as presented. Commissioner Morris seconded the motion. The motion carried unanimously.

**Public Hearing:** None

**Discussion and Information Items:**

**Source Water Operational Status:**

Adam Denlinger reported the successful, injury-free completion of a three-day project with West Tech to replace all filter modules on Filtration Skid 1. The team salvaged 10 usable old modules—installing eight on Skid 2 and storing two—and cleared remaining construction gravel by executing a high-velocity flush that temporarily flooded the floor but fully cleaned the pipe galleries. This flushing certified the installation for warranty protection, and the plant now operates with 16 new modules (eight per skid) that are delivering record-high volume and operational efficiency. Warm, dry weather has dropped Beaver Creek's streamflow by 10 CFS over the past month down to 30 CFS, matching last year's averages but tracking closely with the severe drought conditions of 2015. While the utility only holds seven years of localized data, regulatory rules dictate that if flows fall below 10 CFS, the plant must formally engage the Oregon Water Resources Department. The General Manager announced he will attend a drought committee meeting on June 23<sup>rd</sup> to determine if the county will formally request a governor-declared drought emergency, which currently appears highly likely.

**John Garcia Memorial Dedication:**

A draft proposal was introduced to honor the legacy of former commissioner John Garcia by dedicating the administrative building in his name and installing a memorial plaque. Garcia's daughters are eager to collaborate on the tribute, which will culminate in a public dedication ceremony coordinated around their travel logistics. The Board reviewed the initial draft language—which incorporates feedback from members—and agreed that the final plaque must include Garcia's exact years of service (estimated at over 20 years) verified from district files. No strict deadline was set, but the Board requested members review the draft text, so the project moves forward steadily without unnecessary delays.

63 **Decision Items:**

64 **Adoption of Resolution 0626-01 FY 26-27 Water Rate Adjustment:**

65 Adam Denlinger presented Resolution No. 0626-01 to adjust fiscal year 2026-2027 water rates for the May–June billing  
66 cycle. The resolution implements a \$5.00 base rate increase and a \$0.60 tier increase for users over 4000 gallons. Board  
67 member Morris announced he would vote "no," arguing that adding a \$0.60 consumption increase for use over 4,000  
68 gallons penalizes larger working families with children who consume more water -- to remain sensitive to struggling local  
69 families and respond to public input. Staff noted that removing the \$0.60 increase would reduce projected district revenue  
70 by \$13,000. To accommodate the Board's direction, GM Denlinger confirmed that the text of Resolution No. 0626-01  
71 could be immediately amended to strip out the consumption increase, leaving only the \$5 base rate increase intact for the  
72 final vote. A motion to adopt the amended resolution 0626-01 authorizing a water rate adjustment for fiscal year 2026-  
73 2027 was made by Commissioner Otta and seconded by Commissioner Greer. The motion passed unanimously.  
74

75 **Adoption of Resolution 0626-02 FY 26-27 Annual Budget and Levying Taxes:**

76 Resolution No. 0626-02 was presented to adopt the Seal Rock Water District Annual Budget for fiscal year 2026–2027.  
77 The budget prioritizes transferring funds into reserves to finance a forthcoming Capital Improvement Plan (CIP) and  
78 leverage grant funding. To account for the \$13,000 revenue loss from the newly eliminated \$0.60 water consumption  
79 increase, staff noted that a structural budget rewrite was not legally required since the resolution only governs expenditure  
80 limits. However, Commissioner Morris preferred an explicit amendment to maintain transparency and put the Board's  
81 responsiveness to public feedback in writing. Staff confirmed that reducing the reserve transfer by \$13,000 would not  
82 require a new public budget hearing. Commissioner Otta made a motion to accept the amended Resolution No. 0626-02  
83 to adopt the budget, appropriate funds, impose the tax rate and categorizing the taxes, explicitly factoring in the \$13,000  
84 reduction in General Fund transfers out and Water Source Reserve Fund transfer in. The motion was seconded by  
85 Commissioner Morris and passed unanimously.  
86

87 **MCWCC Scope of Services:**

88 Adam Denlinger requested authorization to renew the annual agreement with GSI Water Solutions for the Mid-Coast  
89 Water Conservation Consortium work plan. This regional group educates the public on water valuation and drought  
90 strategies. Seal Rock's annual contribution remains unchanged at \$9,500, a cost pro-rated by service connections  
91 alongside larger members like Newport and Lincoln City.  
92 The Board reviewed the contract logistics, noting that Seal Rock pays the consortium upfront and receives subsequent  
93 reimbursements from the other regional entities. Denlinger confirmed that historical collection risk is minimal and  
94 protected by a 30-day termination clause. GSI's successful four-year outreach program provides regional newsletters,  
95 billing inserts, school materials, and conservation guides explicitly tailored for local vacation rentals and hotels. A motion  
96 to approve was made by Commissioner Morris and seconded by Commissioner Otta. The motion passed unanimously.  
97

98 **SRWD Employee Handbook Adoption:**

99 Adam Denlinger presented the finalized Seal Rock Water District Employee Handbook, concluding a year-long drafting  
100 process with SDAO Consultant Services and HR Answers. Designed around state-mandated guidelines to aid recruitment  
101 and retention, the final text was highly praised by HR professionals for clarity and completeness. Denlinger credits staff  
102 member Trish Karlsen for meticulously organizing and editing the document into its clean, final format.  
103 A last-minute revision was integrated to clarify testing parameters within the drug and alcohol policy without changing its  
104 core function. Future updates will be handled administratively, staff confirmed that any substantial changes to personnel  
105 law, or Board authority will return to the Board for review. A motion to approve and implement the revised handbook on  
106 July 1, 2026, was made by Commissioner Morris and seconded by Commissioner Otta. The motion passed unanimously.  
107

108 **General Manager Annual Performance Review:**

109 The Board completed its annual performance review for General Manager Adam Denlinger, stating that the final written  
110 document contained no surprises and reflected a year of consistent, high-level execution. President Mills opened the  
111 discussion by mentioning that he and Commissioner Otta met with the GM prior to the meeting to discuss the  
112 consolidated review and that all Board members had received a copy of the performance review. Board members  
113 characterized Denlinger's high performance as consistently excellent, noting that the entire district operates effectively on  
114 the same page. GM Denlinger expressed gratitude for his continued tenure, emphasizing that his positive marks directly  
115 reflect a heavily dedicated staff and their seamless alignment with the Board's strategic goals.  
116 Following the review, the Board discussed the annual compensation adjustment, deciding to formally match the previous  
117 year's compensation structure. The Board approved a one-step salary increase and 80 hours of management leave as a  
118 management bonus. Personnel Action Forms were signed by the Board.  
119

120 **Report, Comments, and Correspondence:**

- 121 • SRWD Office will be closed on June 19th in honor of the National Juneteenth Holiday.
- 122 • SRWD Office will be closed on July 3rd in honor of the Independence Day Holiday.

## Seal Rock Water District

General Manager's Report:  
 Board Meeting – July 9, 2026

This report provides an executive-level update on district operations, source water management, staffing, and ongoing initiatives. Additional details and supporting documentation are available in the full agenda packet.

### Water Treatment Plant Operation:

As we move into the summer months, the Seal Rock Water District (SRWD) is experiencing the effects of warmer temperatures and below-average precipitation across our region. These conditions have resulted in lower streamflows in Beaver Creek, our primary drinking water source, and are expected to continue throughout the summer.

During periods of hot, dry weather, naturally occurring organic materials become more concentrated in the source water while water temperatures increase. These seasonal changes can make the taste or smell of chlorine—our primary disinfectant—more noticeable to some customers, even though the amount of chlorine added to the water changes very little.

Like all public water systems, SRWD is required to meet strict drinking water standards established by the Environmental Protection Agency (EPA) and the Oregon Health Authority (OHA). The EPA allows up to 4.0 milligrams per liter (mg/L) of chlorine in drinking water. Throughout the SRWD distribution system, chlorine residuals consistently remain well below this limit, typically ranging between 0.98 mg/L and 1.54 mg/L, depending on your location within the district.

Chlorine has been used safely to disinfect drinking water for more than a century and remains one of the most effective tools for protecting public health. It prevents the spread of waterborne diseases by inactivating harmful bacteria, viruses, and other microorganisms. As chlorine reacts with naturally occurring organic matter in the source water, a portion of the disinfectant is consumed before a protective residual can be maintained throughout the distribution system. As a result, seasonal changes in water quality may require slight operational adjustments to maintain consistent disinfection.

Although chlorine levels remain safe and well within regulatory standards, some customers may notice a stronger chlorine taste or odor during periods of warmer weather and prolonged dry conditions. These changes are primarily the result of natural environmental conditions and do not indicate that unsafe levels of chlorine are present in your drinking water.

SRWD's licensed operators continuously monitor water quality around the clock and carefully adjust treatment processes to respond to changing source water conditions. Chlorine residuals are monitored 24

*Seal Rock Water District is an Equal Opportunity Service Provider and Employer.*

Adam Denlinger, General Manager

[adenlinger@srwd.org](mailto:adenlinger@srwd.org)

[www.srwd.org](http://www.srwd.org)

hours a day at the treatment facility and are verified through routine sampling at locations throughout the distribution system each month to ensure your drinking water remains safe and reliable.

As summer progresses, operators will continue to closely monitor weather patterns, stream conditions, and water quality to ensure we provide the highest quality drinking water possible while meeting all state and federal drinking water standards.

### **Summer Drought Conditions Update:**

Staff continue to closely monitor developing drought conditions affecting the Oregon Coast and the Beaver Creek watershed. Higher-than-normal temperatures, below-average precipitation, and declining streamflows have increased the potential for drought impacts throughout the region as we enter the peak summer season. While current water supplies remain adequate to meet customer demand, staff are carefully tracking weather forecasts, stream conditions, and system demands on a daily basis.

SRWD is actively coordinating with local, regional, and state partners, including the Oregon Water Resources Department (OWRD), OWRD Watermaster, Lincoln County Emergency Management, and neighboring water providers through the Mid-Coast Water Conservation Consortium. These agencies are sharing information and monitoring conditions to determine whether circumstances may warrant a formal drought declaration or emergency response later this summer.

At this time, SRWD remains in the voluntary conservation phase outlined in the District's Water Management and Conservation Plan (WMCP). Customers are encouraged to use water wisely and practice voluntary conservation measures, particularly for outdoor irrigation and other non-essential water uses. These voluntary efforts help preserve water supplies, reduce system demands during periods of peak consumption, and support healthy streamflows for fish and wildlife.

Staff will continue to evaluate hydrologic conditions, source water availability, and customer demand throughout the summer. Should conditions deteriorate or if a drought emergency is declared by state or local authorities, staff will promptly notify the Board of Commissioners and provide recommendations regarding any additional conservation measures that may be appropriate under the District's WMCP.

At this time, SRWD's water treatment and distribution systems continue to operate normally, and there are no mandatory water use restrictions in effect. Staff will continue to provide regular updates to the Board as conditions develop.

### **Additional District Activities & Updates:**

**Staff/Safety Meeting:** Continued emphasis on safety culture and best operational practices.

**Water Conservation Coordination:** Participated in discussions with the Lincoln County Water Conservation Committee.

**Drinking Water Protection Plan:** Staff continue to work with Oregon Health Authority and Department of Environmental Quality on the Drinking Water Protection Plan.

**Pay Equity Evaluation:** District staff continue working with consultants from HR Answers in an effort to perform a Pay Equity Evaluation for the district.

**Water Master Plan:** Staff met with engineers to discuss progress on the development of the WMP.

**Mid-Coast Water Planning Partnership:** Participated in the monthly regional partnership meeting.

*Seal Rock Water District is an Equal Opportunity Service Provider and Employer.*

Adam Denlinger, General Manager

[adenlinger@srwd.org](mailto:adenlinger@srwd.org)

[www.srwd.org](http://www.srwd.org)

**Oregon Water Utility Council:** SRWD hosted the June 25<sup>th</sup> OWUC monthly meeting.

**SDAO Legislative Committee Meeting:** Participated in the SDAO legislative update.

**SDAO Board Meeting:** Participated in the June 9<sup>th</sup> SDAO Board Meeting.

**Lincoln County Drought Committee:** Participated in the Drought Committee discussion on June 23<sup>rd</sup> with state and local stakeholders in the region.

**Destination Resort Pre-Application Meeting:** Participated in a preliminary consultation with developer considering the development of a destination resort in the district.

**Water Treatment Plant:** Attended a meeting with engineers to discuss restarting the engineers' monitoring period for the WTP operation.

SRWD continues to actively manage operational challenges, regulatory responsibilities, and infrastructure needs while maintaining our commitment to delivering safe, reliable water service to the community. Staff remain focused on continuous improvement and advancement of district goals.

**SEAL ROCK WATER DISTRICT  
BOARD OF COMMISSIONERS**

**TRIBUTE HONORING JOHN GARCIA  
AND DEDICATING THE JOHN GARCIA MEMORIAL BUILDING**

The Seal Rock Water District Board of Commissioners is proud to recognize and honor John Garcia for his extraordinary service, leadership, and dedication to our community.

For more than twenty years, John served the District as a Commissioner and Board President, helping guide the organization through periods of growth, change, and significant investment in the community's water infrastructure. Throughout his service, John remained committed to ensuring that residents and businesses had access to safe, reliable, and affordable drinking water.

John's leadership extended well beyond the boundaries of Seal Rock Water District. He was instrumental in fostering relationships and collaboration among water providers, local governments, and regional organizations throughout the Central Oregon Coast. Through his involvement in regional water planning efforts, John helped advance conversations and partnerships focused on long-term water reliability, resource stewardship, and sustainable solutions for future generations.

Those who worked with John knew him as a thoughtful leader, a strong advocate for the public interest, and someone who always sought practical solutions to complex challenges. His dedication, integrity, and commitment to public service left a lasting mark on both the District and the region.

In recognition of his many contributions, and as a lasting tribute to his service, the Seal Rock Water District Board of Commissioners hereby dedicates the District Administration Building as the

**JOHN GARCIA MEMORIAL BUILDING**

May this building serve as a permanent reminder of John's leadership, his commitment to public service, and the positive impact he had on the Seal Rock community and the Central Oregon Coast.

ADOPTED this \_\_\_\_ day of \_\_\_\_, 2026, by the Seal Rock Water District Board of Commissioners.

# THE JOHN GARCIA MEMORIAL BUILDING

Dedicated in Honor of

Mr. John Garcia

For more than twenty years, John Garcia faithfully served the Seal Rock Water District as Board President, providing extraordinary leadership, vision, and unwavering dedication to the community and its water system.

Through his stewardship, commitment to public service, and tireless advocacy for responsible water management, John helped build and protect the District that serves our community today.

His legacy of integrity, leadership, and devotion to the people of Seal Rock will continue to inspire future generations.

Dedicated by the;  
Seal Rock Water District Board of Commissioners this \_\_\_\_\_, 2026

# 2025 Water Quality Report

**Seal Rock Water District (SRWD)**

**OHA-WS-ID: 41-00798**

Reporting Water Quality Data for Calendar Year 2025

## **Committed to Providing Safe, Reliable, and High-Quality Drinking Water**

At Seal Rock Water District, we understand that clean, safe drinking water is essential to the health and well-being of our community. Our team is dedicated to delivering water that meets or exceeds all regulatory requirements, every day. We continuously monitor water quality throughout our system and utilize advanced technology to ensure the integrity, safety, and reliability of your water supply.

## **Where Your Water Comes From**

The sources of drinking water, whether tap or bottled, include rivers, lakes, streams, reservoirs, springs, and wells. As water moves through the environment, it naturally absorbs minerals and may pick up substances from human or animal activity. SRWD receives our water from Beaver Creek through a surface water intake located adjacent to South Beaver Creek Road.

Common potential contaminants include:

- **Microbial:** Viruses and bacteria from septic systems, agriculture, and wildlife.
- **Inorganic:** Salts and metals, naturally occurring or from runoff and industrial activities.
- **Pesticides/Herbicides:** From farms, urban runoff, and residential use.
- **Organic Chemicals:** Byproducts of industry and gas stations.
- **Radioactive Contaminants:** Naturally occurring or linked to mining and energy production.

## **Delivering Quality Through Advanced Monitoring**

Our water system is monitored 24/7 with a state-of-the-art SCADA (Supervisory Control and Data Acquisition) system. This system tracks water flow, pressure, and key water quality indicators. If anything unusual occurs, alarms alert our operators immediately for prompt action.

## **Water Testing Process**

To ensure safety and compliance, SRWD follows a rigorous testing protocol:

- Samples are collected and refrigerated immediately.
- They are sent to a certified laboratory for analysis.
- Results are sent directly to the Oregon Health Authority (OHA).
- We compile this annual Water Quality Report to share those findings with you.

## What Happens If a Sample Exceeds Limits?

In the rare event that a test result exceeds the allowable limits:

1. We re-test immediately.
2. If the exceedance is confirmed, we take corrective action.
3. We notify affected customers and relevant authorities.
4. Safety is always our top priority.

## Water Quality in 2025: Summary of Results

SRWD routinely tests for over 90 contaminants. In 2024, one out of 80 **lead and copper** samples tested positive for lead. The impacted homeowner was promptly notified, and follow-up testing and corrective actions were taken.

Additionally, for a 35-day period in 2025, SRWD received treated water from the **City of Newport**, which uses similar treatment methods. Visit [www.NewportOregon.gov](http://www.NewportOregon.gov) for their full water quality report.

Microbiological/Organic Contaminants	MCLG	MCL	Your Water	Tested	Violation	Typical Source
Total Coliform	0	1	0	2025	No	Naturally Present
Total Xylene	0	10.0	0.00120	2025	No	Organic Compound
Sodium	0	20.0	16.6	2025	No	Naturally Present

Parameter	Unit Measurement	Measured Level		MCL	Likely Source Standards	Meets Standards
		Site #1	Site #2			
Total Trihalomethanes TTHMs	mg/L	0.0595	0.0520	0.080	By-products of naturally occurring organics and chlorine	Yes
Total Haloacetic Acids HAA5s	mg/L	0.0353	0.0291	0.060		Yes
Turbidity	NTU	Annual Average: 0.03 Highest Single Value: 0.05		0.30	Soil Erosion	Yes

LEAD AND COPPER TEST RESULTS 2024						
The District is required to test again in 2027						
Parameter	MCL	Goal	Maximum Reported Value	Range	Likely Source	Meets Regs
Copper	90% of homes tested must have copper levels of less than 1.3 ppm	0 ppm	100% of the homes tested 0.000 copper levels	None of the 80 homes tested had copper levels above 1.3 ppm	Household plumbing systems	Yes
Lead	90% of homes tested must have lead levels of less than 15 ppb	0 ppb	One of the samples tested above the 15 ppb MRV	One of the 80 homes tested had lead levels above 15 ppb	Household plumbing systems	Yes

## **Safeguarding Against Lead and Copper**

Lead and copper can leach into water from home plumbing materials. These metals pose greater health risks to young children and pregnant women. To reduce exposure:

- Flush your tap for 1–2 minutes if water has not been used for several hours.
- Consider testing your water—resources are available at [www.epa.gov/safewater/lead](http://www.epa.gov/safewater/lead).

SRWD is committed to maintaining safe levels and will continue to monitor closely.

## **Asbestos Monitoring**

The last required test for asbestos in Seal Rock’s water system occurred in 2020, and **none was detected**. The next test is scheduled for 2029.

## **per- and polyfluoroalkyl substances (PFAS)**

As part of the U.S. Environmental Protection Agency’s Fifth Unregulated Contaminant Monitoring Rule (UCMR 5), Seal Rock Water District is currently participating in a nationwide effort to monitor for per- and polyfluoroalkyl substances (PFAS) in drinking water. PFAS are a group of man-made chemicals that have been used in a variety of industrial and consumer products and are known for their persistence in the environment and the human body.

UCMR 5 requires public water systems like ours to test for 29 PFAS compounds and lithium using highly sensitive analytical methods capable of detecting contaminants at extremely low levels (parts per trillion). These tests are designed to help the EPA determine how frequently these substances occur in drinking water systems and at what levels, as a step toward potentially setting future regulatory limits. SRWD’s participation ensures transparency, proactive planning, and continued protection of public health.

In 2025, Seal Rock Water District completed all four required rounds of monitoring under the EPA's Fifth Unregulated Contaminant Monitoring Rule (UCMR 5). Testing was conducted for 29 PFAS compounds using EPA-approved analytical methods capable of detecting contaminants at extremely low concentrations. The results of all four sampling events showed no detectable levels of any of the 29 PFAS compounds analyzed. These results provide additional assurance regarding the quality of SRWD's drinking water and reflect the District's continued commitment to proactive monitoring and public health protection. Customers may review PFAS monitoring results through the Oregon Health Authority's Drinking Water Data Online website. Please note that, according to the Oregon Health Authority, PFAS monitoring data from UCMR 5 is currently being entered into the state's database as resources allow, and a specific timeline for posting all results is not yet available.

## Understanding Water Quality Terms

- **(MCL) Maximum Contaminant Level** - is the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology. MCLs are set at very stringent levels. To understand the possible health effects for many regulated constituents, a person would have to drink 2 liters of water every day at the MCL level for a lifetime to have a one-in-a-million chance of having the described health effect.
- **(MCLG) Maximum Contaminant Level Goal** - the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
- **(N/A)** – not applicable.
- **(ND)** - non-detect.
- **(NTU) Nephelometric Turbidity Units** - a measure of the clarity of water. Turbidity in excess of 5 NTU is just noticeable to the average person.
- **Turbidity** – indicates how cloudy the water is. Turbidity is measured in NTUs.
- **(ppm) Parts per million** or Milligrams per liter (mg/L) - one part per million corresponds to one minute in two years or a single penny in \$10,000.
- **(ppb) Parts per billion** or Micrograms per liter (µg/L) – one part per billion corresponds to one minute in 2,000 years or a single penny in \$10,000,000.

## How the EPA Sets Water Standards

The EPA uses peer-reviewed science to determine which substances need regulation. This includes analysis of:

- How common the substance is
- Human exposure levels
- Potential health risks for sensitive populations

The Safe Drinking Water Act ensures your water meets stringent safety requirements.

## Stay Informed, Stay Safe

## PUBLIC NOTICE

Website

### Seal Rock Water District

The Board of Seal Rock Water District (SRWD)  
located at 1037 NW Grebe Street, Seal Rock, Oregon

### Regular Board Meeting In Person & Via Zoom Video Conferencing

**Thursday, July 9, 2026, at 4:00 p.m.**

SRWD will conduct this meeting in person and using Zoom video conferencing due to the restricted capacity for in-person gatherings and our commitment to prioritize the safety of the public and our employees. We strongly encourage the public to participate in this meeting electronically. To access further information, including registration details, please visit the SRWD website at [www.srwd.org](http://www.srwd.org) on the day of the meeting. We invite members of the public to submit written comments regarding agenda items by emailing [tkarsen@srwd.org](mailto:tkarsen@srwd.org) no later than 2:00 p.m. on the day of the meeting. Submitted comments will be shared with the SRWD Board of Commissioners and will become a part of the permanent record.

The agenda for the meeting will include Consent Calendar; Primary Source Water Project Update; Staff Reports, and other Business from the Board.  
Please see full agenda on our website when available.

In addition, the Board **may** convene an Executive Session under ORS 192.660(2)(h); to consult with legal counsel concerning the legal rights and duties of a public body regarding current litigation or litigation likely to be filed.

The meeting location is accessible to persons with disabilities. A request for an interpreter for the hearing impaired or for other accommodations for persons with disabilities should be made at least 48 hours before the meeting to our main office at 541-563-3529 Option 3.

If hearing impaired, please dial 711 or call TTY# 1-800-735-1232

**Subject:** Please provide a public service announcement for a Seal Rock Water District Regular Board Meeting  
**Attachments:** 260709 Regular Meeting Notice.KPPT Otter Rock.Oregon Coast Breaking News.docx

Hello,

I am hoping that you can provide a public service announcement for our Regular Board Meeting that will be held on 7/9/2026 at 4 pm.

Please see attached.

Thanks so much 😊

*Trish Karlsen*
