## Seal Rock Water District

General Manager's Report:  
Board Meeting April 8, 2021

*This report is an executive summary provided with this Board agenda to Commissioners with recommended actions if any. Detailed information, staff reports, and supporting materials are provided within the full agenda packet.*

### PHASE-IV SOURCE WATER PROJECT:

District staff and engineer along with funding partners from USDA-RD meet bi-weekly with R&G Excavating to discuss project schedule and status. Construction at the WTP site includes continued work on the backwash basin and footings for the membrane building.

#### Raw Water Intake Structure:

The Contractor has taken the preload elevation down to base elevation and has begun the process of installing power vaults and covers over the pipe gallery. Footing has been constructed and rebar is in place for cement pour. Erosion control BMPs are in place and have been reestablished for the wet weather season. CPI is also working in the area to bring power to the intake site. This work is expected to be completed by mid-April.

*Intake Electrical Building pad:*

*Intake with hatch covers:*

*Bridge piping north vault:*

*Piping south vault:*

*Seal Rock Water District is an Equal Opportunity Service Provider and Employer.*
