## Seal Rock Water District

# DRINKING WATER ADVISORY

## Loss of Pressure

### Boil Water Notice Lifted as of February 16, 2023

As of February 16, 2023, at 11:30 am the Boil Water Advisory issued on February 13, 2023, is lifted. Tap water is safe to drink for all customers in the area of Oceania Dr from Pacific Way to Marine View Dr.

Seal Rock Water District issued a “Boil Water Advisory” on February 13, 2023, in response to a loss of pressure as a result of an emergency waterline repair. Only customers in that area were affected by this advisory.

Follow-up testing of drinking water has shown the absence of bacterial contamination. Seal Rock Water District recommends flushing all taps for 2 minutes or until the water runs cold before consuming for the first time. This will flush any potentially contaminated water from the plumbing.

Testing conducted within the affected area since the notice was issued was clear of contamination. The Seal Rock Water District would like to thank our customers for their cooperation and understanding during the boil water advisory. While the contamination was likely minimal, the health and safety of our customers is the District’s first priority. Seal Rock Water District consulted closely with the Oregon Health Authority – Drinking Water Services to ensure that all state and federal health procedures were followed and standards were maintained.

For more information, please visit [www.SRWD.org](http://www.SRWD.org) or contact Seal Rock Water District at 541.563.3529, or send us an email at [info@srwd.org](mailto:info@srwd.org). General guidelines on ways to lessen the risk of infection by contaminants in drinking water are available from the EPA Safe Drinking Water Hotline at 1-800-426-4791 or the Oregon Health Authority, Drinking Water Services at 971-673-0405.
