Seal Rock Water District

General Manager's Report:
 Board Meeting September 8, 2022

This report is an executive summary provided with this Board agenda to Commissioners with recommended actions if any. Detailed information, staff reports, and supporting materials are provided within the full agenda packet.

PHASE-IV BEAVER CREEK SOURCE WATER PROJECT:

Jacobs engineers continue tracking several punch-list items necessary to certify substantial completion. Engineers along with district staff continue to support R&G Excavation along with their subs to satisfy compliance with the contract on Operation and Maintenance Manuals necessary to certify substantial completion. Several O&M Manuals have been submitted and are in review by the engineer. On July 25th the contractor, along with subs successfully installed Raw Water Pump-2 at the beaver creek intake site. After testing by the electrician, the pump was reenergized and placed back in service. Water Treatment Plant Operators have been using Pump-2 for raw water supply and have had no issues.

Seal Rock Water District is an Equal Opportunity Service Provider and Employer.

Chris Sutherland, SRWD
JR Treatment Plant Operator

It gives me great pleasure to report that Chris Sutherland has passed his State of Oregon Health Authority, Drinking Water Program, Grade-1 Water Treatment Certification. This is a significant milestone in the professional development for Chris, and I am happy to report Chris has set the bar high with a score of 92%. Congratulations Chris!
